

About Us

Twin Finch Roastery is an **authentic microroastery**; small, **dedicated**, and highly focused on **quality**.

We have a constantly evolving, hand picked selection of fine coffee origins and delicious blends engineered to help you brew a cafequality cup at home. Our coffee is roasted in a hot air, refractory lined roaster with an extraordinary level of control. The significance of relying on a high volume of hot air to roast coffee beans can't be

understated. Most small coffee roasters use a single stage burner which offers virtually no control during the roasting process. The refractory significantly reduces hot spots which can damage coffee beans and produces a much more even roasting environment. We only ship whole bean, but will grind for you instore per request.

“This **extraordinary** coffee almost defies description with its **aromatic complexity** while retaining a classic clarity of structure.”
