About Us

Twin Finch Roastery is an authentic microroastery; small, dedicated, and highly focused on quality. We have a constantly evolving, hand picked selection of fine coffee origins and delicious blends engineered to help you brew a cafequality cup at home.

Our coffee is roasted in a hot air, refractory lined roaster with an extraordinary level of control. The significance of relying on a high volume of hot air to roast coffee beans can't be understated. Most small coffee roasters use a single stage burner which offers virtually no control during the roasting process. The refractory significantly reduces hot spots which can damage coffee beans and produces a much more even roasting environment.
